

Climate Change Adaptation and Mitigation Initiatives

Victorian Catchment Management Authorities (CMAs) have been leading the way in planning for the impacts of climate change on the natural environment since 2012. This document showcases a selection of climate change adaptation and mitigation initiatives being led by or involving CMAs across the state. For more information go to nrmlclimate.vic.gov.au

Mallee CMA

- Catchment Carbon Offsets
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
Carbon Abatement Partnership Opportunities with Traditional Owners

North Central CMA

- Catchment Carbon Offsets
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
Loddon River native fish recovery
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
- A healthy Coliban catchment

Goulburn Broken CMA

- Catchment Carbon Offsets
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
Carbon Abatement Partnership Opportunities with Traditional Owners
Bogies and beyond
- Irrigation energy calculator

Wimmera CMA

- Catchment Carbon Offsets
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
Carbon Abatement Partnership Opportunities with Traditional Owners
- Mitigation trials
Adaptation trials

North East CMA

- Catchment Carbon Offsets
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
- Embedding climate change in agriculture

Glenelg Hopkins CMA

- Catchment Carbon Offsets
Farm income diversification through adaptation
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
South West Climate Change Portal
- Regenerative farming practices - holistic planned grazing
- Climate adjusted vegetation restoration guide
- Biochar trials

Corangamite CMA

- Catchment Carbon Offsets
Shifts in the region's Cool Temperate Rainforest
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
Blue Carbon
Victorian Coastal Wetland Restoration Program
The Corio Bay and Bellarine Peninsula local hazard assessment
EstuaryWatch event monitoring data captures climate change related events
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
South West Climate Change Portal
- Protecting the environment via on-farm water efficiency

Port Phillip and Westernport CMA

- Catchment Carbon Offsets
Growing carbon in the Port Phillip and Westernport region
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
- Smart Farming for Westernport

West Gippsland CMA

- Catchment Carbon Offsets
Helping the future of Forest Red Gums in the West Gippsland CMA region
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
Managing Lake Wellington
Blue Carbon
Victorian Coastal Wetland Restoration Program
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
- Climate Risk in Agriculture Conference

East Gippsland CMA

- Catchment Carbon Offsets
Room to Move - A proposal to manage a changing Gippsland Lakes
- Carbon stocks, sequestration, and emission of wetlands in south eastern Australia
- Victorian CMA Climate Change Forum
Climate Change Adaptation and Mitigation Planning
- Topsoils
